Subject: NPTEL Examinations.

Many students who have opted NPTEL courses in current semester are requesting to allow to appear Institute Examinations due to spread of CORONA virus throughout the country as it is very difficult and risky to reach examination centers at which examinations are being conducted by NPTEL in offline mode. Many e-mails have been received since last one month as well as their parents are calling faculty members of the Institute.

The matter was discussed in the meeting of HODs and Deans held on today. It has been **decided to allow them to appear in Institute Examinations as only one time measure**. In future no such requests will be entertained. All HODs are requested to make arrangement for the same. Also it was decided that continuous evaluation marks will be taken from record of NPTEL such as assignments and tests etc which students have to provide.

All HODs are requested to conduct their end term examination online with following norms:

1. The separate question paper will be prepared as per NPTEL syllabus. Question paper will be common for 8 week and 4 week courses.
2. The Continuous Evaluation Marks will be based on either student has to submit the NPTEL score card or he has to produce the record of assignments, tests etc.
3. Their grading will be done with justification amongst them and other students attending the courses of the department. (For same courses)
4. In case the student remain absent in the examination of the Institute as well as in NPTEL examination he will be declared with failure grade.
