ABOUT MANIT

Maulana Azad National Institute of Technology (MANIT) established in 1960, is the premier institute for technology in Central India. MANIT is one of the leading institutions of national importance in technical education. Established with the objective of developing a multi-disciplinary centre for technical education by strengthening both teaching and research activities besides contributing to the needs of rural community, society, and industry at large.

AIM OF THE WORKSHOP

Gender sensitization is important because representation is important. Representation of a person and community not only advocates equality but also adds a sense of inclusion to the previously marginalized community. For a healthy performance-oriented culture, organizations need a right mix of talent which is not bound by gender. In a world where accountability has become important now more than ever, organizations only have today to make the changes that count, as tomorrow they won't be able to hide under the guise of ignorance.

The concept of gender sensitivity is a way to reduce the barriers caused due to harassment, discrimination, and gender bias. Creating the right kind of gender-sensitive environment leads to mutual respect regardless of their gender.

SPEAKERS

The speakers will be the experts/faculty from various backgrounds of social science/police/NLIU/social activist

WHO CAN APPLY?

The participants should be enrolled as students in a UGC recognized university/deemed university/colleges/institutes of national importance and ICSSR Research Institutes/private institutes across the different disciplines.
