

Subject: Library facilities.

Dear students, faculty and staff members,

Since long time, Institute administration wanted to improve the ambience and functioning of the library. Our aim is to make our library vibrant, user friendly and richer with the learning resources, so that maximum number of Institute inmates can be benefitted. Recently we have come up with several changes and additions in the library, which will certainly attract our Institute community.

We have refurbished the reading hall at ground floor and now it is a state-of-art ergonomic designed. With combined efforts of various departments, we could place more than 10,000 newly purchased books on the respective shelves. Now there are about 1.5 lakh books in our library, which are readily available for borrow and use. Digital library is also operative now. We have 40 fully functional computer terminals each with high speed internet connectivity. Users can come during library timings and can freely access journals, e-books and other reading materials online. Four new Library Science educated Interns have been recently appointed in the library to facilitate the stakeholders. With the addition of these four energetic workers, our library team is further strengthened, to provide best services to all of us. This has also paved way for the free access of the students in the book section, where they have liberty to pick and choose books of their choice.

I am hopeful that the new ambience will attract more footfalls to the library. I appeal particularly to my dear students to make optimum utilization of the available library resources for a bright and glorious future. Your frequency of utilizing the library resources and prolong stay in the library will further encourage us to increase the working hours of the library and even consider to keep the library open on Saturdays and Sundays.

Any further suggestions to improve the library facilities may be sent to undersigned. We will make all out efforts to improve it.
