

# **CENTRAL LIBRARY**

## **MANIT, Bhopal**

### **Circular**

Dated: 26 / 07 / 2012

#### **Subject: Subscription and Activation of MathSciNet**

All faculty members, research scholars & students are requested to note that the Central Library has subscribed to **MathSciNet (an American Mathematical Society initiative)**. This product was recommended by the Department of Mathematics and has been procured through INDEST consortium on payment basis.

An immensely useful product, MathSciNet is an electronic publication that offers access to a carefully maintained and easily searchable database of reviews, abstracts and bibliographic information related to most of the mathematical sciences literature. More than 1, 00,000 new items are added each year, most of them being classified subject – wise. Authors are uniquely identified, enabling a search for publications by individual author rather than by name string. Extending the Mathematical Reviews (MR, first published in 1940) tradition, MathSciNet contains over 2 million items and over 1 million direct links to original articles. Bibliographic data from retro - digitized articles dates back to the early 1800s. It also provides citation data for journals, authors, articles and reviews, which allows users to track the history and influence of research publications in the mathematical sciences.

The URL for accessing the subscribed resources is: <http://www.ams.org/mathscinet/>

The access is up and running now, and covers all content being made available by AMS.

The access to the subscribed resource has been activated on all currently active institute IP Ranges (as indicated & confirmed by Mr. H. S. Chouhan, I/c Networking).
