ABOUT MANIT BHOPAL

Maulana Azad National Institute of Technology (MANIT), Bhopal, formerly known as Maulana Azad College of Technology (MACT), Bhopal, was established in the year 1960 and subsequently upgraded to National Institute of Technology (NIT) in 2002. The Civil Engineering Department is one of the oldest departments of the institute and was established in 1962. The initial journey was started with UG program in Civil Engineering followed by M. Tech programs in seven specializations. The department also offers PhD programs in different frontier areas of civil engineering research. The department is equipped with state of the art laboratory facilities and is involved in providing testing, consultancy and research services in various areas of civil engineering. The institute is located in the heart of Bhopal City (the capital of Madhya Pradesh). Bhopal is well known worldwide as the city of lakes. It is well connected to various parts of the country by road, rail and air. The Institute is located at a distance of about 8 km from Bhopal railway station and 20 km from Raja Bhoj Airport.

ABOUT THE CONFERENCE

The conference is aimed at bringing together the designers, researchers and practicing engineers working in the field of various specialization of civil engineering to foster and promote exchange of ideas on the recent advances in the field of civil engineering for sustainable development. The exchange of ideas is expected to enhance the state of art on the subject. The conference will be beneficial to field engineers, research scholars and academicians. Due to COVID 19, conference will be held in online mode in digital platform, which will be informed to individual.

THEMES

The international conference on Recent Advances in Civil Engineering for Sustainable Development (RACESD-2021) scheduled during **Feb.13-14, 2021** focuses on a wide range of issues of Civil Engineering to enhance the knowledge-base, increase awareness, explore new ideas and thinking. The technical sessions will consist of plenary and keynote lectures, in which both the leading experts and young researchers will present state-of-the-art reviews of rapidly-developing and exciting areas, report the latest significant findings and developments in all the major fields of Civil Engineering as follows:

- Water Resources Engineering
- Transportation Planning and Traffic Management, Pavements, ITS
- Geotechnical and Geo-environmental Engineering
- Use of Geospatial (RS,GIS,GPS) and AI Technologies
- Impact of Climate Change
- Environmental Engineering
- Construction Engineering and Management
- Structural and Earthquake Engineering

The Organizing Committee invites academicians, engineers, architects, researchers, and developers to present paper(s) and/or participate in the conference. We are confident that this International Conference RACESD-2021 will bring significant benefits to the participants too.
