Calibrating Urban Livability in the Global South

Gendered perspectives on climate, health, governance and policy

About

The conference cum workshop on "Calibrating Urban Livability in the Global South" offers an interdisciplinary platform for researchers and professionals to delve into urban livability. Through the lenses of policy, public health, climate resilience, environmental sustainability, governance, and gender, participants will engage in critical discussions aimed at addressing these gaps and fostering inclusive urban development. The conference includes workshop on Learning Labs.

Sub Themes:

- Urban Planning, Mobility, & Infrastructure
- Communities, Neighborhoods, & Housing
- Public Health, Wellbeing, & Accessibility
- Resilience and Sustainability
- Climate Change Adaptation
- Policy and Governance
- Technology and Evaluation
- Architecture & Spatial Design
