INNOVATE	INCUBATE	LEARN	LAUNCH
Solve real-world problems	Build prototypes & solutions	From experts & startups	Turn ideas into impact

INTERNSHIP DURATION
15 JUNE 2026 – 15 JULY 2026
(ONE-MONTH PROGRAMME)

INTERNSHIP FEE
₹5,000/-
(Rupees Five Thousand Only)

ABOUT THE PROGRAMME

The Internship Programme for undergraduate students is an initiative to develop a research-oriented mindset and promote innovation, entrepreneurship, and research activities through practical exposure. It provides a platform to work on real-world challenges, develop prototypes, understand commercialization pathways and explore startup opportunities.

OBJECTIVES

- Identify and develop solutions for real-world problems
- Model and solve practical engineering and business challenges
- Publish research work in reputed journals and conferences
- Register innovative work in the form of patents
- Convert ideas into prototypes and proof-of-concepts
- Understand product development and commercialization pathways
- Explore product marketing strategies and startup opportunities
- Learn about funding opportunities and entrepreneurial ecosystems
- Transform prototypes into commercially viable products

TRAINING & LEARNING COMPONENTS

- Entrepreneurial characteristics and startup culture
- Funding opportunities and startup support mechanisms
- Business plan preparation and pitching
- Product design and development
- Quality Control and product improvement methodologies
- Company formation and startup registration processes
- Interaction with incubated startups and innovators
- Product marketing and commercialization strategies
- Leadership Styles
- Project Management
- Patent filing

ADDITIONAL ASSIGNMENTS

- ✓ Projects under faculty members
- ✓ Problem statements from incubated startups
- ✓ Research-oriented assignments based on their specialization and interests
- ✓ Business Plan competition

ELIGIBILITY CRITERIA

Students pursuing B.Tech., BBA, B.Com., B.Sc. or B. Pharma programmes (excluding MANIT Bhopal)

ACCOMMODATION

- Hostel accommodation may be provided to outside Bhopal students on payment basis, if available.
- If hostel accommodation is not available within the campus, students are required to make their own arrangements for lodging and boarding during the internship period.

ATTENDANCE REQUIREMENT

- There is no provision for leave during the internship period. Students must maintain 100% attendance to become eligible for the internship completion certificate.

SELECTION PROCESS

- Applications will be screened and selection will be done on a first come first serve basis.

Summer Internship Programme on Startup Building, Innovation and Entrepreneurship

For B.Tech/ BBA/B.Com/B.Sc/B.Pharma Students

The **Internship Programme (IP)** for undergraduate students is a new initiative launched by the **MANIT Rolta Innovation and Incubation Foundation (MRIIF)** at MANIT Bhopal. The programme aims to develop a research-oriented mindset among undergraduate students at an early stage and promote innovation, entrepreneurship, and research activities through practical exposure.

MRIIF at MANIT Bhopal was established to provide a unique platform for entrepreneurship, startup incubation, innovation, and technology commercialization. The centre is committed to fostering a vibrant startup ecosystem in and around Bhopal and supporting students in transforming ideas into impactful solutions and commercial ventures.

Objectives of the Internship Programme

The internship programme is designed to motivate undergraduate students to:

- Identify and develop solutions for real-world problems
- Model and solve practical engineering and business challenges
- Publish research work in reputed journals and conferences
- Register innovative work in the form of patents
- Convert ideas into prototypes and proof-of-concepts
- Understand product development and commercialization pathways
- Explore product marketing strategies and startup opportunities
- Learn about funding opportunities and entrepreneurial ecosystems
- Transform prototypes into commercially viable products
